

Foundation Year Profile:

Omar Baiba Mohamed Salem is 17 years old and from Western Sahara.

Omar has come to RCN with a sense of pride in his achievements, and rightly so! He is as keen a student as you could meet and is always looking to the next challenge. He has already started to contribute to our community in many positive ways and we look forward to watching him flourish during his time with us.

He claims that he has no favourite subject as all subjects are his favourite - given his enthusiasm during the four week RCN Summer Course and then the start of term, we at RCN can easily believe this!

After RCN, Omar would like to work as a programmer, preferably in the green sector, and if not then a programmer then he wants to be involved in working towards a more sustainable green future. With this opportunity he is sure to make the very best of it and is finally one step closer to achieving his goals.

Simon Ramsay (Foundation Year Coordinator)
